UNIVERSAL

Exciting 3D Scorch, Fantasic Animation! Laser Disc Has Changed The Drive Game!

HOW TO PLAY

- There are four courses — present, near future, future and space.
- After selecting any of the four courses press the start button.
- You can spend 120 seconds per course. When the allotted time is spent, the game is over. Making a round within the allotted time resets the fixed time to 120 seconds, and the remaining non-spent time is counted as bonus points when you reach the goal.
  - Making two rounds along the present course allows you to advance to the next course.
  - The game is over when you have finished all courses.
